ORTOCENTER

ORTHOPEDIC PRODUCTS

ORTOCENTER founded in 1985, one of the pioneers in the manufacture of ORTHOPEDIC and HOSPITAL PRODUCTS.

Company that has been highlighting the quality and technology applied in its products. Always researching and developing new techniques for evolution in the sector.

ORTOCENTER strictly maintains the sanitary surveillance standards required in the sector.

We have qualified professionals, equipment and machinery suitable for the production of quality products.

With these innovations new products have been developed expanding the range of options in the market.

We provide several rescue kits used in major emergency services nationwide.

Our quality has crossed borders and today we export worldwide.

We thank our customers, partners and employees for reliability, ensuring the quality and continuity of our products and company.

Indications:
Support for the cervical spine during removal of the injured traumatism.

Features:
Made of High density polyethylene, coated in E.V.A. and Mentonian support. With wide frontal opening for analysis of the choroid pulse, access to trachea and velcro closure.

Cod: 037

Sizes: Extra Small, Small, Medium, Large and Extra Large

Emergency Cervical Collar – São Paulo

Indications:
Support for the cervical spine during removal of the injured traumatism. Traumatism, torticollis, arthritis and other cervical spine affections.

Features:
Made of High density polyethylene, coated in E.V.A. 5mm for best confort. With wide frontal opening for analysis of the choroid pulse and velcro closure.

Cod: 041

Sizes: Single with adjustable

Elastic Chest Band

Cod: 055

Indications:

Contusions, rib fractures, steoporotic thoracic vertebrae.

Features:

Made of elastic and velcro closure.

Height: 15, 20 and 25 cm

Sizes: Small, Medium, Large

Thoracic Band in Tissue and Elastic

Cod: 059

Indications:

Contusions, rib fractures, steoporotic thoracic vertebrae.

Features:

Made of Linen Tissue, elastic and velcro closure.

Heights: 15, 20 and 25 cm

Sizes: Small, Medium, Large

Elastic Waist Band with Saddles and Lateral Reinforcement

Cod: 060

Indications:

Abdominal wall sagging, post partum and post surgical.

Features:

Made of elastic With saddles, lateral reinforcement and velcro closure.

Heights: 20 cm

Sizes: Small, Medium, Large and Extra large

Elastic Waist Band with Cross Straps

Cod: 063

Indications:

Abdominal wall sagging, post partum and post surgical.

Features:

Made of elastic With saddles, lateral reinforcement and velcro closure.

Heights: 25 cm

Sizes: Small, Medium, Large and Extra large

Elastic Lumbar Range with Cross Straps

Cod: 065

Indications:

Lumbar spine Stabilization, post partum and post surgical.

Features:

Made of elastic With saddles, lateral reinforcement and velcro closure.

Heights: 25 cm

Sizes: Small, Medium, Large and Extra large

Elastic Waistcoat Strap with Duraluminium Fins

Cod: 070

Indications:

Lumbar spine stabilization in traumatism arthroses, scoliosis, fracture of other diseases of the region, stabilization of the trunk.

Features:

Made of elastic with saddles, lateral reinforcement, four duraluminium fins and velcro closure.

Tamanhos: Small, Medium, Large and Extra large.

Elastic Waistcoat Strap with Flexible Fins

Cod: 071

Indications:

Lumbar spine stabilization in traumatism arthroses, scoliosis, fracture of other diseases of the region, prevention of recurrence in sports practices.

Features:

Made of elastic with saddles, lateral reinforcement, auto adjustable fins with steel spring and velcro closure.

Sizes: Small, Medium, Large and Extra large.

Vest in Elastic Sirloin Sacrum Low Putti

Cod: 072

Indications:

Stabilization of the sacral spine in case of contractures, post-trauma, arthroses, spondylolithesis, lordosis, postoperative and other diseases of the region.

Features:

Made of elastic with saddles, lateral reinforcement, duraluminium fins and velcro closure.

Sizes: Small, Medium, Large and Extra large.

Vest in Elastic Sirloin Sacrum High Putti

Cod: 074

Indications:

Stabilization of the region in case of herniated disc, post-trauma, arthroses, spondylolithesis, lordosis, postoperative and other diseases of the region.

Features:

Made of elastic with saddles, lateral reinforcement, duraluminium fins and velcro closure.

Sizes:

Small, Medium, Large and Extra large

Simple Backrest

Cod: 075

Indications:

Correction and posture of the shoulders and treatment of postural and juvenile thoracic kyphosis.

Features:

Made of sturdy elastic with foam auxiliary pads, Velcro closure

Sizes:

Small, Medium, Large and Extra large.

Backrest for Adjustable Posture

Cod: 078

Indications: Correction and posture of the shoulders and treatment of postural and juvenile thoracic kyphosis.

Features: Made of sturdy elastic with passant adjust, Velcro closure

Sizes: Small and Large

Jeans Backrest

Cod: 080

Indications:

Correction and posture of the shoulders and treatment of postural and juvenile thoracic kyphosis.

Features:

Made of sturdy elastic, jeans, Velcro closure.

Sizes:

Extra Small, Small, Medium, Large and Extra large.

Abdominal Band 4 Panels

Cod: 088

Indications:

Post operative, abdominal liposuction, stomach reduction, hernias, post partum, bruising in the chest region and avoids sagging.

Features: Made of elastic panels, Velcro closure

Sizes: Small, Medium, Large and Extra large.

Heights 30 cm

Putti Vest with Handle Type Sprege

Cod: 090

Indications:

Stabilization of the region Dorsum-Loin-sacrum in case of herniated disc, post-trauma, arthroses, spondylolithesis, lordosis, postoperative and other diseases of the region.

Features: Made of Jeans With side adjustments, steel fins, jean strap and Velcro closure.

Sizes: Small, Medium, Large and Extra large.

Putti Vest in Jeans

Cod: 100

Indications:

Stabilization of the region Dorsum-Loin-sacrum in case of herniated disc, post-trauma, arthroses, spondylolithesis, lordosis, postoperative and other diseases of the region.

Features:

Made of Jeans With side adjustments, steel fins and Velcro closure.

Sizes:

Small, Medium, Large and Extra large.

Jewett Vest

Cod: 105

Indications:

For patients with cyphot posture and fracture in the thoracic spine.

Features:

Made of PVC and coated in soft foam and Velcro closure.

Sizes:

Small, Medium, Large and Extra large.

Immobilizer in Eight for Clavicle

Código: 110

Indications:

Immobilization and alignment of clavicle fractures

Features:

Made with adjustable foam cotton strips and metal walkers with auxiliary pads.

Sizes:

Extra Small, Small, Medium and Large

Strap for Pregnant Woman

Código: 115

Indications:

Abdomen support, relief of low back pain, relief of abdominal muscles and spine. Posture Improvement.

Features:

Made with Front support in solid tissue with elastic rods.

Sizes:

Single Size

Simple Sling Type Envelope

Código: 200

Indications:

Upper Limb Support.

Features:

Made with Tissue.

Sizes:

Small, Medium and Large

Velpeau Type Immobilizer in Upholstered Nylon (Infant)

Código: 201

Indications:

Immobilization of the upper limb, contusions dislocation, fractures of the humerus, elbow, bursitis and sequelae of the A.V.C.

Features:

Made of nylon with foam, plastic buckle with one-handed manipulation, Velcro closure, bilateral.

Sizes:

Single Size – Child

Raymond Humerus Immobilizer

Código: 205

Indications:

Immobilize fractures of the humeral neck in the final phase of consolidation, dislocation and contusions of the shoulder, elbow and other affections of the upper limb. Stabilizes arm, forearm and shoulder

Features:

Upholstered tissue, velcro closure and elastic back

Sizes:

Small, Medium and Large

Velpeau Type Immobilizer in Upholstered Tissue

Código: 210

Indications:

Immobilization of the upper limb, contusions dislocation, fractures of the humerus, elbow, Dislocations, bursitis and sequelae of the A.V.C.

Features:

Made of upholstered tissue double, plastic buckle with one-handed manipulation, Velcro closure, bilateral.

Sizes:

Small, Medium and Large

Velpeau Type Immobilizer in Upholstered Nylon

Código: 212

Indications:

Immobilization of the upper limb, contusions dislocation, fractures of the humerus, elbow, Dislocations, bursitis and sequelae of the A.V.C.

Features:

Made of nylon, plastic buckle with one-handed manipulation, Velcro closure, bilateral.

Sizes:

Small, Medium and Large

Velpeau Type Immobilizer in Canvas

Código: 220

Indications:

Immobilization of the upper limb, contusions dislocation, fractures of the humerus, elbow, Dislocations, bursitis and sequelae of the A.V.C.

Features:

Made of Canvas, plastic buckle with one-handed manipulation, Velcro closure, bilateral.

Sizes:

Small, Medium and Large

Velpeau Type Immobilizer in Perforated Screen

Cod: 222

Indications:

Immobilization of the upper limb, contusions dislocation, fractures of the humerus, elbow, Dislocations, bursitis and sequelae of the A.V.C.

Features:

Made from perforated screen, plastic buckle with one-handed manipulation, Velcro closure, bilateral

Sizes: Small, Medium, Large and Extra Large

Sling Type Tote Bag in Perforated Screen

Cod: 225

Indications:

Upper limb support.

Features:

Made of Perforated screen, plastic buckle and velcro closure. Bilateral.

Sizes:

Small, Medium, Large and Extra Large

Sling Type Tote Bag in Double Upholstered Tissue

Cod: 226

Indications:

Upper limb support.

Features:

Made of Tissue, plastic buckle and velcro closure. Bilateral.

Sizes:

Small, Medium, Large and Extra Large

Velpeau Type Immobilizer in Canvas Summer Light Type

Cod: 230

Indications:

Upper limb support.

Features:

Made of Canvas, plastic buckle and velcro closure. Bilateral.

Sizes:

Small, Medium, Large and Extra Large

Strap for Tennis Elbow

Cod: 235

Indications:

Epicondylites and other affections of the elbow, prevention of recurrence of sports practice.

Features:

Upholstered Velcro strap with microfoam. Bilateral.

Sizes:

Small and Large

Double Strap for Tennis Elbow

Cod: 238

Indications:

Epicondylites and other affections of the elbow, prevention of recurrence of sports practice.

Features:

Strap with support on the handle and steel fins. Bilateral.

Sizes:

Small and Large

Tutor for Humeral Fractures

Cod: 250

Indications:

Functional treatment of humeral fractures by the Sarmiento method and assists in the stabilization of the humerus.

Features:

Made of semi rigid plastic molded in two pieces, mesh liner and Velcro closure.

Sizes:

Medium and Large. (Right and left)

Immobilizer Splint for Handle

Cod: 300

Indications:

Tenosynovitis for wrist, arthroses, ligamentous lesions, corrections of the vicious positions in rheumatoid arthritis, region affections and prevention of recurrence in the return of activities.

Features:

Made of Tissue, Velcro closure and internal reinforcement in rigid plastic.

Sizes:

Small, Medium, Large and Extra large (Right and left)

Long Immobilizing Splint

Cod: 308

Indications:
Traumatic injuries, tenosynovitis for wrist, arthroses, ligamentous lesions, region affections and prevention of recurrence in the return of activities.

Features:
Made of Tissue, Velcro closure and internal reinforcement in rigid plastic.

Sizes:
Small, Medium, Large and Extra large (Right and left)

Elastic Splint for Handle

Cod: 310

Indications:
Traumatic injuries, tenosynovitis for wrist, region affections and prevention of recurrence in the return of activities.

Features:
Made of Elastic and Tissue, Velcro closure and internal reinforcement in rigid plastic.

Sizes:
Small, Medium, Large and Extra large. (Right and left)

Ortocenter Elastic Splint

Cod: 312

Indications:
Traumatic injuries, tenosynovitis, synovial cysts, region affections and prevention of recurrence in the return of activities.

Features:
Made of Elastic with support in Curvin, Velcro closure and internal reinforcement in rigid plastic.

Sizes:
Small, Medium, Large and Extra large (Right and left)

Preventive Splint

Cod: 315

Indications:
Prevention of Tendoinites during the work L.E.R.

Features:
Made of Tissue, Velcro closure and internal reinforcement in rigid plastic.

Sizes:
Small, Medium, Large and Extra large. (Right and left)

Immobilizer Cuff and Thumb Splint

Cod: 307

Indications:
Tenosynovitis for wrist, arthroses, ligamentous lesions, rheumatoid arthritis, region affections.

Features:
Made of Tissue, Velcro closure and internal reinforcement in rigid plastic.

Sizes:
Small, Medium, Large and Extra large. (Right and left)

Simple Elastic Wristband

Cod: 318

Indications:
Light affections of the wrist, in the sports practice prevention of recurrence.

Features:
Made of Elastic, Velcro closure.

Sizes:
Small, Medium, Large

Splint Type Seesaw for Finger Extension

Cod: 330

Indications:
Sprains, contusions, small fractures, joint reeducation in rheumatoid arthritis and in the arthroses and affections of the fingers.

Features:
Made of Stainless steel wire and micro porous foam pads.

Sizes:
Extra Small, Small, Medium, Large and Extra large

Hammer Finger Splint

Cod: 333

Indications:
Rupture of the extensor tendon (hammer finger) joint reduction of rheumatoid arthritis deformities.

Features:
Made of Stainless steel wire, Leather Support and E.V.A.

Sizes:
Extra Small, Small, Medium, Large and Extra large

PVC Splint for Thumb

Cod: 320

Indications:

Contusions, small fractures, joint reeducation in rheumatoid arthritis and in the arthroses and affections of the Thumb.

Features:

Molded PVC and Velcro tie Rods.

Sizes:

Single Size (Right and left)

PVC Splint for Handle and Thumb

Cod: 335

Indications:

Contusions, fractures, Tenosynovitis of Quervain, sprains, joint reeducation in rheumatoid arthritis and in the arthroses and affections of the Thumb.

Features:

Molded PVC and Velcro tie Rods.

Sizes:

Single Size (Right and left)

PVC Splint for Handle Hand and Thumb

Cod: 340

Indications:

Contusions, fractures, Peripheral nerve palsy Sequelae of A.V.C., joint reeducation in rheumatoid arthritis and in the arthroses and other affections. Finger and wrist immobilization.

Features:

Molded PVC and Velcro tie Rods.

Sizes:

Single Size (Right and left)

PVC Splint for Handle

Cod: 345

Indications:

Contusions, fractures on handle. Fixed functional position.

Features:

Molded PVC and Velcro tie Rods.

Sizes:

Small, Medium and Large (Right and left)

Partial Immobilizer Knee Orthosis

Cod: 420

Indications:

Traumatic knee disorders, prevention of recurrence in the return of activities. Reeducation of gait in sequelae of STROKE, arthroses, post-operative arthritis of cerebral palsy.

Features:

Made of Elastic, Tissue and foam, Velcro closure and internal reinforcement in Duralumin.

Sizes:

Small, Medium, Large

Immobilizing Orthosis Functional Position

Cod: 430

Indications:

Traumatic knee disorders, Gypsum replacement, prevention of recurrence in the return of activities, reeducation of gait in sequelae of STROKE, arthroses, post-operative arthritis of cerebral palsy.

Features:

Made of Elastic, Tissue and foam, Velcro closure and internal reinforcement in Duralumin.

Sizes:

50, 60, 70cm (height) - Narrow and wide

Elastic Hinged Knee Brace

Cod: 440

Indications:

Traumatic knee disorders, Chronic instability, arthroses, arthritis.

Features:

Made of Elastic, side Duralumin fin and medial, Velcro closure.

Sizes:

Small, Medium, Large and Extra Large

Elastic Hinged Knee Brace with Cross Straps

Cod: 445

Indications:

Traumatic knee disorders, Chronic instability, Recurrence Prevention of sports practice.

Features:

Made of Elastic, side Duralumin fin and medial, Crossstraps to enhance knee rotational stability, Velcro closure.

Sizes:

Small, Medium, Large and Extra Large

Elastic Compressive knee Brace

Cod: 450

Indications:
Post-operative, post-arthroscopy, compression of joint effusion.

Features:
Made of Elastic, Hole for the kneecap and foam liner, Velcro closure.

Sizes:
Small, Medium, Large and Extra Large

Elastic Kneader for Kneecap

Cod: 455

Indications:
Chronic instability post-operative, post-arthroscopy.

Features:
Made of Elastic straps, Hole for the kneecap and foam liner, Velcro closure.

Sizes:
Small, Medium, Large and Extra Large

Elastic Sub Patellar Strip with Cushion

Cod: 460

Indications:
Tendinitis of the patellar tendon, stress relief in the patellar tendon.

Features:
Made of Elastic straps and micro foam, Velcro closure.

Sizes:
Small, Medium, Large

Sub Patellar Strip in Tube

Cod: 465

Indications:
Tendinitis of the patellar tendon, stress relief in the patellar tendon.

Features:
Made of Elastic straps with anterior cushion and micro foam, Velcro closure.

Sizes:
Small, Medium, Large and Extra large

Tutor for Tíbia Fractures

Cod: 470

Indications:
Functional treatment of Tíbia fractures by the Sarmiento method and Protection of the region after placement of prostheses or implants.

Features:
Made of semi rigid plastic molded in two pieces, Articulated ankle support and Velcro closure.

Sizes:
Small and Large. (Right and left)

Ankle Stabilizer

Cod: 500

Indications:
Avoid sprains by improving the stability of the ankle joint in sports practice. Prevention of deformities of rheumatoid arthritis, assisting in the gait of the patient with flexor dorsum.

Features:
Made of Cotton canvas plastic side fins, elastic straps and Velcro closure.

Sizes:
Small, Medium, Large and Extra Large (Right and left)

Protect and Ankle Stabilizer

Cod: 505

Indications:
Avoid sprains by improving the stability of the ankle joint in sports practice.

Features:
Made of Cotton canvas plastic side fins, elastic straps and Lock with Shoelace.

Sizes:
Small, Medium, Large and Extra Large. (Right and left)

Ankle Immobilizer

Cod: 510

Indications:
Mild sprains, replaces gypsum, prevention and treatment of rheumatoid arthritis deformities.

Features:
Made of leather, duraluminum side fins and Velcro closure.

Sizes:
Small, Medium, Large and Extra Large. (Right and left)

Elastic Anklet in Eight

Cod: 515

Indications:
Avoid sprains by improving the stability of the ankle joint in sports practice. Compression of the ankle joint, treatment of small sprains, tendinitis, bursitis.

Features:
Made of Elastic straps and Velcro closure.

Sizes:
Single Size

Sandal for Plaster

Cod: 520

Indications:
Support and protection of plastered boots when allowed to march.

Features:
EVA sole, resistant synthetic tissue. Velcro closure.

Sizes:
Extra Small, Small, Medium, Large

Anti Equine Support

Cod: 526

Indications:
Reeducation in locomotion in AVC sequelae, Nerve paralysis.

Features:
Elastic, With Latex backing on the sole and velcro closure

Sizes:
Small, Medium, Large

Brace with Metatarsal Support

Cod: 530

Indications:
Anterior arch drop, hyperkeratosis in the metatarsal Vhead region and rheumatoid arthritis deformity.

Features:
Elastic, Latex Foam or silicone and velcro closure.

Sizes:
Small, Medium, Large

Plantar Support

Cod: 535

Indications:
Transverse arch Fall, calosities and ulcerations in the lumbar region of the metatarsal head, deformity in rheumatoid arthritis.

Features:
Latex Foam Coated on Jersey.

Sizes:
Small, Large

Protect Support

Cod: 540

Indications:
Transverse arch Fall, calosities and ulcerations in the lumbar region of the metatarsal head, deformity in rheumatoid arthritis.

Features:
Latex Foam Coated on Jersey.

Sizes:
Small, Large

Damper for Calcaneal Spur

Cod: 1545

Indications:
Plantar facite, heel bursitis, Calcaneal Spur.

Features:
Molded Micro Porous Foam.

Sizes:
Small, Medium, Large and Extra Large

Baruk Sandals

Cod: 550

Indications:
Post operative of Bunion.

Features:
Rubber, leather, and velcro closure.

Sizes:
Extra Small, Small, Medium, Large

Insoles with Plantar Arches

Cod: 1800

Indications:
Pain relief and correction of foot deformities.

Features:
Micro Foam.

Sizes:
Numbers from 3 ½ to 12 ½

Insoles with Plantar Arches or Metatarsal Bar

Cod: 1810

Indications:
Pain relief and correction of foot deformities, metatarsalgia.

Features:
Micro Foam.

Sizes:
Numbers from 3 ½ to 12 ½

Insoles Ortocenter

Cod: 1845

Indications:
Relief in the pain of the heels.

Features:
Micro Foam and E.V.A.

Sizes:
Numbers from 3 ½ to 12 ½

Elastic Strap for Haluxx Valgo Traction

Cod: 1851

Indications:
Phalangan metatarsal bursitis of the large artelho, rheumatoid arthritis deformity, postoperative surgery of Haluxx Valgo.

Features:
Elastic, Micro Foam .

Sizes:
Small, Medium and Large

Gutter

Cod: 1880

Indications:
Immobilization of the ankle and feet, replaces the short orthosis for positioning.

Features:
Foam coated polypropylene, Velcro closure .

Sizes:
Tailored

Short Immobilizer Boot Height 33 cm

Cod: 555

Indications:
Ankle sprains, prevention for treatment of rheumatoid arthritis and postoperative deformities.

Features:
Foam with duraluminium fins and rigid plastic, Velcro closure .

Sizes:
Extra Small, Small, Medium, Large and Extra Large

Long Immobilizer Boot Height 39 cm

Cod: 556

Indications:
Ankle sprains, prevention for treatment of rheumatoid arthritis and postoperative deformities.

Features:
Foam with duraluminium fins and rigid plastic, Velcro closure.

Sizes:
Extra Small, Small, Medium, Large and Extra Large

Long Immobilizer Boot Robocenter

Cod: 558

Indications:
Ankle sprains, prevention for treatment of rheumatoid arthritis and postoperative deformities.

Features:
Plastic injected Base, Foam with duraluminium fins and rigid plastic, Velcro closure .

Sizes:
Small, Medium, Large and Extra Large

Sling for Double Inguinal Hernia

Cod: 600

Indications:

Inguinal hernia support, avoiding growth.

Features:

Resistant elastic, polyurethane pellets lined soft and anatomymyas. Velcro closure.

Sizes:

80, 85, 90, 95, 100, 105 and 110 cm Circumference

Sling for Inguinal Hernia

Cod: 610

Indications:

Inguinal hernia support, avoiding growth.

Features:

Resistant elastic, polyurethane pellets lined soft and anatomymyas. Velcro closure.

Sizes:

80, 85, 90, 95, 100, 105 and 110 cm Circumference (Right and left)

Special Sling for Inguinal Hernia

Cod: 615

Indications:

Inguinal hernia support, avoiding growth.

Features:

Resistant elastic, Steel sheet, polyurethane pellets lined soft and anatomymyas. Velcro closure.

Sizes:

80, 85, 90, 95, 100, 105 and 110 cm Circumference (Right and left)

Sling for Umbilical Hernia

Cod: 620

Indications:

Hernia support in the navel region, avoiding growth.

Features:

Resistant elastic, polyurethane pellets lined soft and anatomymyas. Velcro closure.

Sizes:

80, 85, 90, 95, 100, 105 and 110 cm Circumference

Underwear for Inguinal Hernia

Cod: 625

Indications:
